Summary

Results-driven Product Analyst and CRM Implementation Specialist with experience in SaaS implementations, CRM delivery, functional testing, and client onboarding. Skilled in requirement gathering, cross-functional coordination, API integrations, workflow optimization, and enterprise application support. Proven ability to manage multiple projects, ensure timely delivery, and enhance customer experience through strong problem-solving and stakeholder management skills. Experienced in client interactions, process improvement initiatives, and delivering business-focused solutions aligned with organizational goals.

Experience

Implementation Specialist Delivery & Testing (Level II) – Meritto

Feb - 2026 to Current

- Coordinated with cross-functional teams to manage CRM change requests, track development tasks, and ensure timely delivery of enhancements.
- Performed functional and regression testing to validate CRM system changes, identify issues, and ensure application quality and stability.
- Supported end-to-end CRM delivery by ensuring solutions aligned with client requirements and business processes.
- Managed client coordination and project activities for CRM applications, ensuring smooth execution, timely issue resolution, and adherence to quality standards.

Product Analyst “Implementation Team”- Octoze Technologies

Feb 2024 to Feb 2026

- Performed data validation and accuracy checks during onboarding and implementation to ensure clean and reliable data flow.
- Improved operational workflows by identifying gaps and suggesting process enhancements for better product usage.
- Provided strategic inputs to streamline BA workflows and boost delivery efficiency.
- Analyzed product usage and market trends to guide feature enhancements and client success.
- Managed client communications, on-site visits, and project progress reviews to strengthen engagement.
- Oversaw API integrations, testing, and validation to maintain system reliability.
- Implemented multiple concurrent projects across regions, ensuring smooth execution and client satisfaction.
- Conducted user onboarding, training sessions, and product walkthroughs to drive adoption and reduce support dependency.

Product Analyst “Support Team”- Octoze Technologies

Jan - 2023 to Feb - 2024

- Conducted on-site client visits to strengthen engagement and track project support progress.
- Initiated, managed, and followed up on Customer Satisfaction (CSAT) processes to improve service quality.
- Contributed to the customer engagement team by supporting service delivery and ensuring a high level of client satisfaction.
- Managed and supported multiple projects concurrently across various states, ensuring smooth delivery and timely issue resolution.
- Collaborated with cross-functional teams to relay and prioritize customer feedback, enabling continuous process improvements and enhanced client experience.
- Diagnosed and resolved complex technical and functional issues through thorough root-cause analysis, escalating cases when necessary to maintain service continuity.

- Managed customer relations, inventory, and customized order fulfillment.
- Ensured product quality, supervised cash flow, and led team efficiency improvements.
- Contributed to CRM development, and product R&D, and consistently achieved high customer satisfaction.
