SUMMARY

Results-driven Product Analyst and Implementation Specialist with experience in SaaS implementations, CRM delivery, functional testing, and client onboarding. Skilled in requirement gathering, cross-functional coordination, API integrations, workflow optimization, and enterprise application support. Proven ability to manage multiple concurrent projects, ensure timely delivery, and enhance customer experience through strong problem-solving and stakeholder management. Experienced in AI-assisted delivery using tools like Claude to design and ship work faster.

EXPERIENCE

Implementation Specialist — Delivery & Testing (Level II)

Feb 2026 — Present

Meritto

- Own end-to-end CRM delivery — aligning solutions with client requirements and business processes across the full implementation lifecycle.
- Coordinate cross-functional teams to manage change requests and development tasks, keeping enhancements on schedule.
- Lead functional and regression testing, surfacing defects early to protect application quality and stability.
- Manage client coordination and project activities end to end, driving smooth execution and fast issue resolution.

Product Analyst — Implementation Team

Feb 2024 — Feb 2026

Octoze Technologies

- Delivered multiple concurrent CRM implementations across regions, driving smooth go-lives and high client satisfaction.
- Safeguarded data integrity through rigorous validation and accuracy checks during onboarding and implementation.
- Streamlined operational and BA workflows by identifying gaps and driving process enhancements that lifted delivery efficiency.
- Oversaw API integrations, testing, and validation to keep systems reliable and well-connected.
- Led user onboarding, training sessions, and product walkthroughs that accelerated adoption and reduced support dependency.
- Managed client communications, on-site visits, and progress reviews to deepen engagement and trust.

Product Analyst — Support Team

Jan 2023 — Feb 2024

Octoze Technologies

- Supported and delivered multiple concurrent projects across states, ensuring smooth delivery and timely issue resolution.
- Owned the Customer Satisfaction (CSAT) process end to end — initiating, managing, and following up to raise service quality.
- Resolved complex technical and functional issues through structured root-cause analysis, escalating when needed.
- Partnered with cross-functional teams to prioritize customer feedback and drive continuous process improvements.

Assistant Manager

Jun 2022 — Nov 2022

Sri RAK Jewellers

- Managed customer relations, inventory, and customized order fulfillment for the retail operation.
- Ensured product quality, supervised cash flow, and led team efficiency improvements while contributing to CRM development.

FEATURED PROJECT

Automated Client Onboarding & Implementation Workflow — Designed an end-to-end automation from deal closure to go-live: OTP-gated self-service intake, automatic task routing, 3-level SLA escalation, and milestone-based client updates — removing manual status-chasing and giving every stakeholder real-time visibility. Full case study: [bharath-profile.vercel.app](#)
